

Enhancing the City's Tree Canopy

Discussion on Strategies

Background

- Strategic Plan Item
- Tree Protection Ordinance – 2023
- Tree Canopy Benefits

Benefits of Trees

Why Trees Are So Cool

Experts say trees should be considered urban infrastructure, every bit as important and useful as sewage, drinking water and transportation systems. They are an important tool for cities to reduce urban heat island effects. Here are a few ways trees benefit our urban environments:

- By intercepting and absorbing rain, they reduce stormwater runoff.
- They absorb and store carbon dioxide.
- In a process known as **evapotranspiration**, trees take up water from the ground and release it through the surface of their leaves, cooling the surrounding air.
- By creating shade for buildings, they can reduce energy demand, which also reduces waste heat from air conditioners.
- They can help clean the air by taking in air pollutants.
- They block sunlight, helping to keep the ground below cool.

Redondo Beach Urban Forest

- Over 11,300 City Owned Trees
- Broad Species Diversity
- Age Distribution Balance

RB City Trees – 2025 Trunk Diameter Distribution

COMMON (Botanical)		Total	Pct.
TOP TEN SPECIES	MEXICAN FAN PALM (<i>Washingtonia robusta</i>)	1,986	17.48%
	SOUTHERN MAGNOLIA (<i>Magnolia grandiflora</i>)	1,874	16.49%
	CHINESE ELM (<i>Ulmus parvifolia</i>)	652	5.74%
	NEW ZEALAND CHRISTMAS TREE (<i>Metrosideros excelsa</i>)	599	5.27%
	KING PALM (<i>Archontophoenix cunninghamiana</i>)	315	2.77%
	CRAPE MYRTLE (<i>Lagerstroemia indica</i>)	284	2.50%
	BRAZILIAN PEPPER (<i>Schinus terbinthifolius</i>)	238	2.09%
	CARROTWOOD (<i>Cupaniopsis anacardioides</i>)	236	2.08%
	CAJEPUT TREE (<i>Melaleuca quinquenervia</i>)	227	2.00%
	BRISBANE BOX (<i>Lophostemon confertus</i>)	223	1.96%
"OTHER" SPECIES		4,730	41.62%
Total Trees		11,364	100%

Redondo Beach Urban Forest

- Planted nearly 1000 trees in last 6 years
- Removed just under 200 trees in last 6 year
- Average annual net increase of ~125 trees
- ~ 11,350 City Trees

Additions to Tree Count - 6 Years ending FY2025

City Owned Trees

- Tree Protection Ordinance
- Approved Species List
- Standard of Care – Policy Manual
- Planting Programs

RBMC §5-11

Chapter 11 TREE PROTECTION AND PRESERVATION

- ☐ § 5-11.01 Purpose.
- ☐ § 5-11.02 Definitions.
- ☐ § 5-11.03 Public trees—Prohibited activities.
- ☐ § 5-11.04 Public trees—Non-development requests to remove.
- ☐ § 5-11.05 Public trees—Development related requests to remove.
- ☐ § 5-11.06 Protection of public trees during construction.
- ☐ § 5-11.07 Public trees—Exemptions.
- ☐ § 5-11.08 Public trees—Violations and penalties.
- ☐ § 5-11.09 Public trees—Fee schedule.
- ☐ § 5-11.10 Public trees—Appeals.
- ☐ § 5-11.11 Public trees—Lists of favored and disfavored trees.
- ☐ § 5-11.12 Public trees—Policies and guidelines.

- ☐ § 5-11.01 Purpose.

Tree protection and preservation is necessary for the health and welfare of the City. Trees are a valuable resource which help define the character of the City, and provide many social, economic, and environmental benefits. Trees are worthy of protection in order to preserve the scenic beauty, prevent soil erosion, provide shade, and improve air quality.

RB Canopy Coverage

- USDA/USFS data available
- Need Refinement as a first step before setting goals and timelines

Privately Owned Trees

- Development Opportunities / Conditions
- Preservation Requirements
- Necessary Partnership

Land Use	Parcel Count
Single Family Residential	8,268
2-3 Unit Residential	3,512
4 or More Unit Residential	1,520
Mixed Use Residential/Commercial	41
Sum Residential	13,341
Commercial	616
Industrial	78
Institutional	85
Parks and Open Space	67
Utility and Open Space	23
Sum Open Space	90
Utility	44
Vacant	83
Total Parcels	14,337

Preservation

Trees in good condition, suitable for preservation and of appropriate species receive 200% credit based on their existing canopy area.

Planting

The calculated mature canopy area of all trees planted receive canopy credit, native trees receive credit for 125% of their mature canopy area.

Fee-in-Lieu

A fee can be paid for planting or preserving trees elsewhere.

Discretionary Review

Innovative, alternate development proposals that provide equivalent environmental benefits' (hydrological, climate or wildlife) can be used instead of planting or preservation.

Options for meeting the tree canopy requirements.

American Planning Association

Property Type	Area - Acres
City ROW	894
City Owned Parcels	185
Sum City Area	1079
Privately Owned Parcels	2932
TOTAL AREA IN CITY	4010
Percentage City Controlled	27%

Potential Tools to Enhance Canopy

- Continue to assess, quantify & monitor City trees
- Increase public engagement and education
- Publish best practices / design guidelines
- Improve user friendliness of City materials and resources
- Continue to plant new trees in appropriate vacant locations
- Work with community partners to promote awareness and enhance volunteer efforts
- Create a donation program
- Establish development incentives for tree planting and preservation

RECOMMENDATION

Receive and File information on the City's Tree Canopy practices and policies, and provide direction to staff on additional tools to enhance the City's tree inventory
